

I am a small business owner and I have been in business for thirty years. I have shipped hundreds and hundreds of packages with our USA made products to my clients. For about a year and a half now the Post Office has taken much longer to deliver my packages and several had to be tracked and found due to returning to sender which I have never had happen before. My business is very dependent on the Post Office continuing to serve the American public as mandated in the Constitution. The changed that Mr. DeJoy is requesting will weaken our country. Keep the Post Office strong, this will help small business's. Sincerely, Denise Stecher Business Owner
